III. First Aid Procedures

Ingestion: Drink warm water, milk, or activated charcoal and induce vomiting by touching back of throat with a finger. Consult a physician.

Inhalation: If moderate discomfort to throat or nose, remove to fresh air and support respiration. Call physician if discomfort persists.

Eyes: Flush eyes with water for 15 minutes. Call a physician if discomfort persists.

Skin: Wash with soap and water if aggravation occurs. Call a physician if discomfort persists.

IV. Fire Fighting Measures

Extinguishing Media: Water Spray - material is essentially non-flammable

Special Fire Fighting Procedures: Do not breath fumes. Wear self-contained breathing apparatus. Remove from area of fire at first opportunity.

Unusual Fire Hazards: If heated to decomposition, will give off toxic fumes.

V. Accidental Release Measures

If Spill Occurs: If material is uncontaminated, collect into clean container for use.
If contaminated, scoop into containers for disposal. Inform
authorities immediately if sewers or watercourses are contaminated.

VI. Handling and Storage

Store in a cool dry area. Keep out of reach of children and domestic animals.

VII. Exposure Controls/Personal Protection

Ventilation Protection: Provide local or general ventilation to keep dust below
ACGIH nuisance dust limit of 10mg/m³. Applicators
should stand upwind.

Respiratory Protection: NIOSH/MSHA approved respirator should be used if dust
exposure exceeds levels of 10mg/m³.

Protective Clothing: None usually required. Long sleeves and gloves should be
used by those with sensitive skin.

Eye Protection: Use of safety glasses is recommended.
